

New Morning Carpool Procedures

In an effort to alleviate the congestion we experience during the morning carpool, we are adjusting our procedures. Line 1 (the main carpool line) will continue to operate as normal. Line 2 should be utilized by those families with a student in 4th grade and higher who do not need assistance when exiting. Line 2 cars should queue up at the island and unload simultaneously. Students should then walk inside the cones to the island to enter school. If you need to park and unload, please do so in the designated area. All drivers please be alert for walkers.

School starts at 7:50 am. If 100 cars arrive at 7:45 it does not matter how efficient our carpool line is; we only have one lane to enter and exit our campus and you will probably be late. Please allow sufficient time to safely get your children to school.
